About Us

At Mobility Independence, we empower individuals to live life on their terms. Specialising in high-quality mobility scooters, wheelchairs, and walkers, we're dedicated to enhancing freedom and comfort for those with mobility challenges.

Our mission is to provide innovative, reliable, and user-friendly solutions that promote independence and confidence.

Founded with a passion for making a difference, we understand that mobility is more than just movement—it's about reclaiming freedom, connection, and the ability to engage with the world.

Our carefully curated range features cutting-edge designs, durable materials, and at a price that meets the budget!

We ensure every product meets the highest standards of safety and performance, with the fastest delivery times in Australia.

Our team is committed to personalised service, offering expert guidance to help you find the perfect mobility solution. We pride ourselves on exceptional customer care, fast delivery, and ongoing support to keep you moving.

At Mobility Independence, we believe everyone deserves the freedom to live actively and independently. Join us in embracing a life without limits—because your mobility is our mission.

Freedom Warrior Mobility Scooter

Rediscover mobility with the Freedom Warrior. Designed for those who refuse to be held back, this light-as-a-feather folding 4-wheel scooter delivers power and performance without the bulk. Weighing only 16kg it fits effortlessly into your car's boot and be used with convenience on public transport and taxis

With a smooth fold-flat or bi-fold mechanism that takes seconds, you'll be ready to go in no time. Thanks to its durable lithium battery, enjoy up to 12km per charge—enough for your daily errands or weekend outings. And with a load capacity of about 120kg, it's built to carry both your body and your essentials comfortably.

Take the controls with confidence: adjustable tiller and seat, solid tyres that don't puncture, anti-tip safety features, and reliable braking keep every ride smooth and secure. Plus, it looks great too—sleek, modern styling, colour choices, and refined finishes make it stand out in a crowd.

Whether you're heading to the shops, travelling, or getting outdoors, the Freedom Warrior offers the perfect balance of portability, power, and comfort. Because mobility should be freeing, not limiting.

"Freedom in Every Fold"

Meet the Freedom Warrior — your ultra-light, ultra-portable companion. Stability to take on a range of environments, one featherweight frame, folds in seconds, and drives you wherever you want to go in style and comfort.

Travel Lite

The World's Lightest 4-Wheel Folding Mobility Scooter

Experience ultimate freedom with the Travel Lite, the world's lightest genuine 4-wheel folding mobility scooter. Crafted with advanced carbon fibre and magnesium alloy, this ultra-portable scooter weighs only 12.5 kg (excluding battery) and folds flat in seconds — perfect for travel, holidays, or everyday use.

➤ Impressive 15km Travel Range

Enjoy extended journeys with a reliable battery that supports your independence.

➤ Supports Up to 125kg Weight Capacity

Built tough to accommodate a wide range of users comfortably.

➤ Comfort-Driven Design

Features a padded seat, adjustable tiller, and flip-up armrests for a personalised ride.

➤ User-Friendly LED Control Panel

Intuitive controls for easy operation, even for first-time scooter users.

➤ Onboard and Offboard Charging

Charge your battery conveniently wherever you are.

➤ Enhanced Safety Features

Equipped with electromagnetic braking for reliable stopping power.

Key Benefits & Features

Super-Lightweight & Travel-Friendly

Built with premium lightweight materials, mobility independence has range of folding and transportable scooters which provide more freedom and independence to our clients.

Quick Fold Design

A smart folding mechanism that collapses flat or into compact dimensions in seconds—no tools required—so you can stow it, store it, or load it with ease.

Comfort & Control

Ergonomic padded seat, adjustable tiller, flip up/removable armrests, intuitive LED control panel, and reliable braking ensures a smooth, safe ride.

Impressive Range & Capacity

Go up to 20-30km on a single charge with a lightweight lithium battery. Supports a load capacity of 100-120kg so it suits a wide range of users.

Compact Storage

When folded, dimensions reduce significantly to store neatly in closets, car boots, or small storage spaces. Folds flat or into a low profile for travel.

Safety & Durability

Four wheel stability (better than 3 wheel alternatives), solid/fixed tyres anti tip wheels, reliable braking, good ground clearance for mild inclines. Meets relevant safety / travel standards.

Stylish Design

Modern and sleek appearance, colour options, clean lines—designed not just to perform, but to look good doing it.

Electric Scooter (4WS)

- New four-wheel steering design concept
- Quick folding and easy to carry
- Foldable foot rest and comfortable seats
- Intelligent controller and electromagnetic brake

 Can be taken on the plane

 Four-wheel steering

 One-key folding

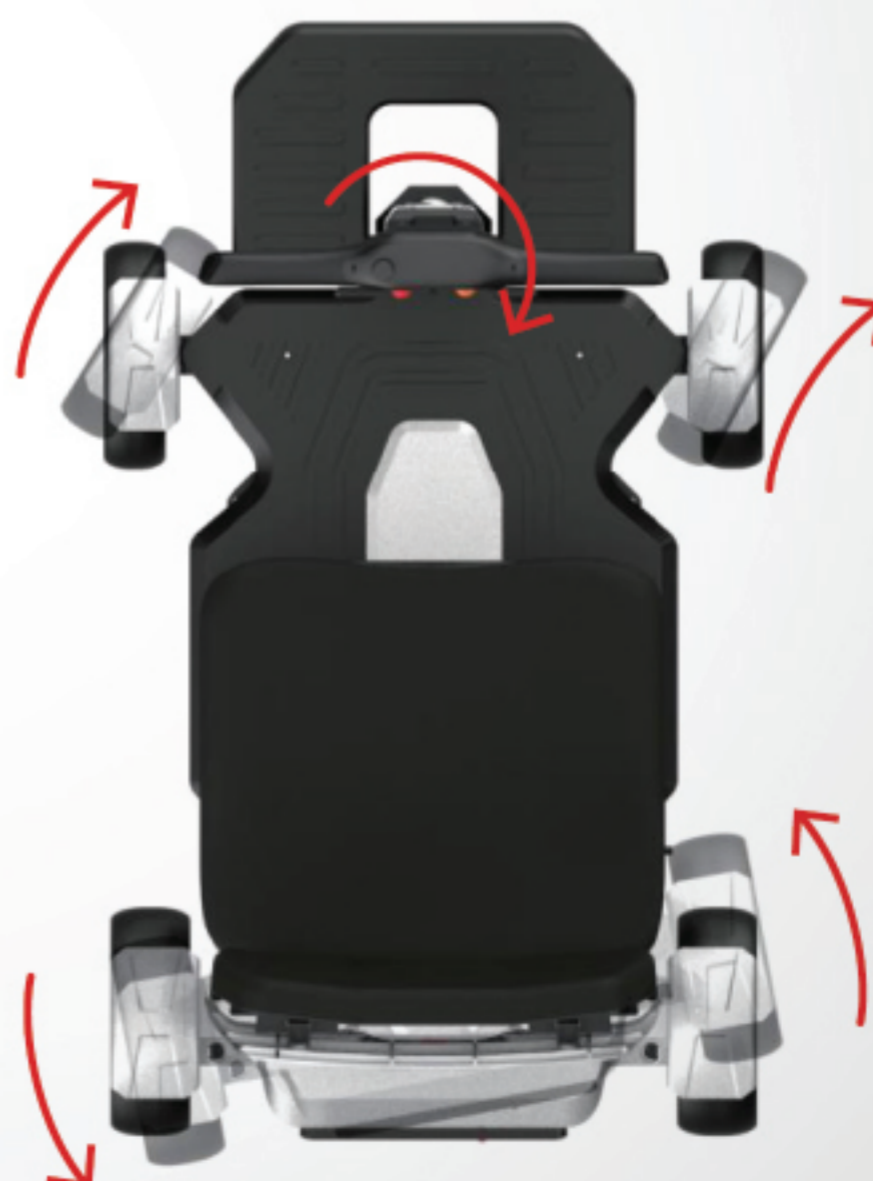

The 4 wheel steering mobility scooter is a lightweight, foldable 4-wheel electric mobility scooter designed for effortless daily use. Featuring innovative four-wheel steering for superior maneuverability, quick-fold design, comfortable seating with foldable footrest, and powerful electromagnetic brakes, it offers smooth, safe riding with a 20km+ range. Perfect for seniors and anyone seeking portable, reliable mobility.

Crafted from durable aluminum alloy, the 4WS weighs just 25kg yet supports up to 120kg. It features a quick-fold design that collapses in seconds for easy transport and storage.

Enjoy a smooth, comfortable ride with plush seating, a foldable footrest, intelligent controller, and reliable electromagnetic brakes for confident stopping power. Powered by a 250W motor and 24V 12Ah lithium battery, the 4WS scooter offers a range of 20km+ on a single charge, with a top speed of 15km/h and 12° climbing ability.

Whether you're navigating shopping centres, parks, or home, the 4WS mobility scooter provides portable, dependable mobility for seniors and anyone seeking greater independence. Compact, safe, and user-friendly — your perfect travel companion.

Lightweight Folding Power Wheelchairs

Carbon King Power Wheelchair

Aerolite Electric Wheelchair

Introducing our lightweight range of power wheelchairs Experience a new era of independence and convenience with the Carbon King and Aerolite Solutions. Crafted with advanced carbon fiber & magnesium alloys technology, MI wheelchair offers an unparalleled Aerolite Solutions an unparalleled combination of strength, durability, and a featherlight build—perfectly engineered for those who demand more from their mobility aids. Whether you're navigating tight spaces or traveling on the go, the lightweight range ensures effortless movement, all while offering sleek design and cutting-edge features

Lightweight Folding Power Wheelchairs

Key Benefits & Features

Featherlight Carbon Fiber & Magnesium Alloy Frame

Constructed using aerospace-grade carbon fiber, the frame offers maximum strength with a minimum weight—making it one of the lightest power wheelchairs on the market.

Effortless Maneuverability

Equipped with high-performance motors and precision steering, ensuring smooth navigation on both indoor and outdoor surfaces. Its compact size allows you to easily maneuver in tight spaces.

Powerful, Long-Lasting Battery

Enjoy worry-free freedom with a high-capacity lithium battery system that provide an impressive range, allowing you to travel for hours without needing to recharge.

Customisable Seating System

Designed for comfort, the adjustable seating system ensures proper posture and support. Choose from a range of cushions, armrests, and backrests to create your perfect seating configuration.

Smart Control Panel

A user-friendly, intuitive control panel makes adjustments simple. Customise speed, driving mode, and more with just a few taps. The integrated joystick is precise and responsive, providing ultimate control.

Advanced Suspension System

Travel smoothly on various terrains with the advanced suspension system, ensuring a comfortable ride even on bumpy or uneven surfaces.

Ultra-Portable and Easy to Fold

With a quick and easy folding mechanism, the MI Power Chairs fits effortlessly into cars, buses, or even airplane compartments, making it the ideal choice for frequent travelers.

Sleek, Modern Design

Combining function and style, the sleek carbon fiber body not only looks futuristic but is designed for optimal performance and strength.

Enhanced Safety Features

Includes automatic braking, anti-tip wheels.

Weather-Resistant Materials

Built to withstand all conditions, the Carbon King's frame and components are weather-resistant, ensuring longevity and reliable performance even in harsh environments.

App Integration

Optional Bluetooth connectivity with an app that allows for remote control, diagnostics, and customization of your wheelchair settings directly from your smartphone.

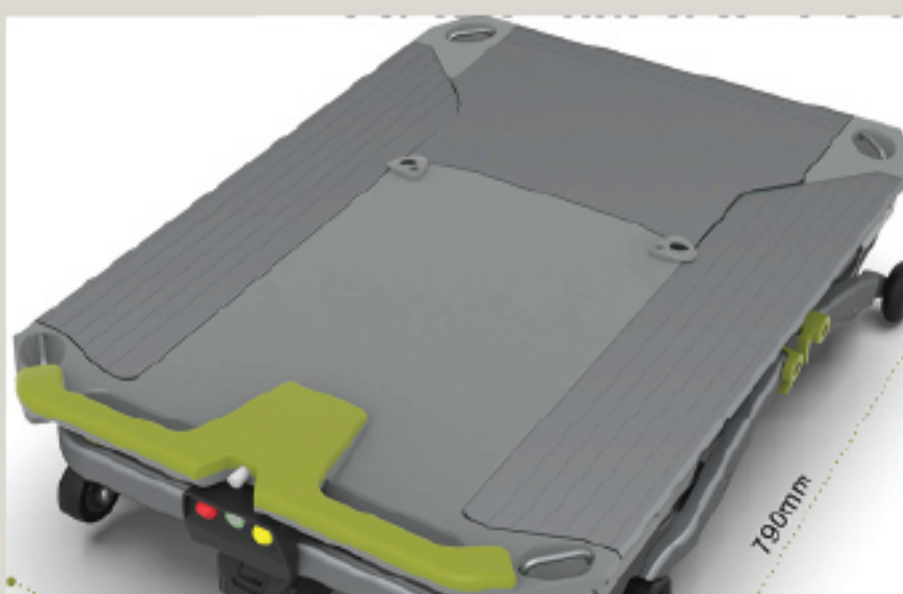

Multi Purpose “Hylorax” Lifter

In the world of mobility lifts, the HYLORAX 50kg lifter emerges as a revolutionary portable solution for effortlessly hoisting wheelchairs and mobility scooters into vehicles, far surpassing the limitations of traditional car boot hoists. These fixed installations, while effective for daily use, often demand professional fitting, vehicle-specific wiring, and permanent modifications that lock users into one car.

The Hylorax car boot Lifter, with its lightweight, scissor-lift design and rolling wheels, flips the script by delivering unmatched flexibility without compromising on power or safety.

The Hylorax Lifter has also been designed as a Multi-purpose Lifter, so our clients can also use for general lifting within the home.

Office

Mobility Independence is based in Western Sydney, NSW, Australia.
Specialising in NSW, we also provide services nation wide.
